ABOUT ME

I am a positive, ambitious, and hardworking person who believes in continuous growth and learning. I value honesty, kindness, and meaningful connections in both personal and professional life. With a creative mind and a strong sense of responsibility, I strive to make the best out of every opportunity. I enjoy taking on new challenges and believe that every experience teaches something valuable. I am always ready to help others, spread positivity, and inspire those around me.

EDUCATION

2022-2025
MAJ University

Bachelor of Arts (B.A.)

I have completed my Bachelor of Arts (B.A.), a program that helped me grow both intellectually and personally. During this course, I developed a deeper understanding of subjects related to history and political sciences.

2021
board of secondary education,rajasthan

math & science

In my 12th class, I chose the MCP stream, which includes Mathematics, Chemistry, and Physics. This combination helped me build a strong foundation in analytical thinking, problem-solving, and scientific reasoning

SKILLS

- HTML
- CSS
- Boothstrap
- JavaScript
- React

PROJECT

1. Personal Portfolio Website
- Tech Stack: HTML, CSS, JavaScript OR React, Tailwind
- Designed and developed a responsive portfolio website to showcase projects, resume, and contact details. Hosted on GitHub Pages.

2. To-Do List App
- Tech Stack: HTML, CSS, JavaScript
- Created a dynamic to-do list app with features like add, delete, mark complete, and persistent storage using localStorage.

3. Calculator App
- Tech Stack: HTML, CSS, JavaScript
- A simple calculator that supports basic arithmetic operations with responsive design.

4. Weather App
- Tech Stack: React, OpenWeatherMap API
- Developed a weather forecasting app that fetches real-time weather data by city using a public API and displays temperature, humidity, and conditions.
